The prior art of record does not disclose, teach or suggest directly, or indirectly the following limitations in combinations with other limitations of the claims, as follows:

As recited by claim 26,

a first VoIP gateway for translating call signals from said telephones for a call authorized by the stored restrictions into data packets, the first VoIP gateway transmitting the data packets over said VoIP network to a second VoIP gateway for processing the received data packets into telephone signals transmitted to said offsite public switched telephone network via a three-way call detection system for imposing a three-way call restriction, said three-way call detection system being disposed between a second VoIP gateway and said offsite public switched telephone network.

As recited by claim 43,

interfacing a telephone terminal of said prison telephone system with a public switched telephone network (PSTN) via the first VoIP gateway, a second VoIP gateway and a three-way call detection system responsive to the call processing system authorizing a call placed on the telephone terminal, the second VoIP gateway placed between the PSTN and the IP network and the three-way call detection system placed between said second VoIP gateway and said PSTN.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
